2 DEC 1971

MEMORANDUM FOR: Executive Director-Comptroller

Colonel White:

Herewith a few items which you should know about and which I can amplify by phone or face to face if necessary.

25X1

a. [redacted] is on extended sick leave and plans to apply for disability retirement.

ILLEGIB

b. Action on the [redacted] POV problem is underway as indicated in the attached messages. We believe you would be particularly interested in paragraph 1 of [redacted]

25X1

c. O/L, O/F, and FE representatives are meeting today with [redacted] on the [redacted] problem this being the first time [redacted] could set up. By telephone he had indicated his belief that enough floor space was included in the basic building to permit accommodating expanded Agency personnel complement assuming that a total of 7,000 square feet is our number. In his absence his people had indicated quite the contrary. We will have to see as the conversations take place but [redacted] apparently does not in any case favor trying to change the basic [redacted] structure at this point.

25X1
25X1

SEE
DP JES
d. As indicated in the attached PSD memorandum to [redacted] a new and much larger printing load has been laid on us by Mr. [redacted]. We understand that [redacted] contacted the Director some time last weekend and that [redacted] has again discussed the impact with the Director after receiving [redacted] memorandum.

SECRET

25X1

[redacted] and his people are setting up in the O/C Conference Room Friday morning and on the mornings of next week a prototype of the remote computer controlled receiver system which has been in development for a couple of years. [redacted] suggests that if convenient you come down with me and Tom Karamessines after the Friday Morning Meeting. Should this not be possible for you [redacted] would like to show this operating system controlling receiver at [redacted] in [redacted] to you at your convenience some morning next week. It is of course also being shown to many other people in the Agency during the days it will be available here. I hope that you can make time available to see it.
